

BEE (Business, Enterprise, Employability) is a series of financial literacy workshops delivered to Primary School students by members of the IFoA.

The programme focuses on money management and financial concepts as well as giving students the opportunity to engage with business professionals to raise aspirations. The students experience running their own businesses in teams, designing and selling products and evaluating their work.

Student Feedback

“The thing that I liked the best was we learned different things such as taxes and budgeting and we performed our presentation also designed our products.”

“We learnt about insurance and how to handle money.”

“I liked making the presentations, it was fun and enjoyable. It was a good team effort task.”

“The interaction with the children is always interesting and fun. Every class and session is different and that makes it so interesting. I also enjoyed seeing everything we covered with them, come together in the final presentations.”
